# APTITUDE TEST

## APTITUDE

"Aptitude" is something very important especially for students who are trying to enter corporate world or going to write any competitive exams. I Personally Feel "Aptitude is not Knowledge or Skills that one has learned over the years, it's a 'natural talent' that someone posses." However, it can be explored and developed within by us and that can be achieved by understanding and practicing the concepts of aptitude. ( Please refer to page no. 13 to read "Tips to improve Aptitude" ) An individual with good aptitude skills are considered better than others because they are fast at their mind and good at problem solving skills. Thus aptitude has become the most important soft skills these days.

## APTITUDE TEST SCORE

### YOUR APTITUDE RESULT SHOWS HIGH INTEREST IN

- Mathematical Ability Test (15-16 years age)
- Conceptual Reasoning Test (15-16 years age)
- Writing Skills Test (15-16 years age)

### YOUR APTITUDE RESULT SHOWS AVERAGE INTEREST IN

- Mechanical Reasoning Test (15-16 years age)
- Speed & Accuracy Test (15-16 years age)
- Logical Thinking Test (15-16 years age)

## Mathematical Ability Test (15-16 years age)

Your score is:

HIGH

This test contains questions that test your knowledge of percentages, ratios, number sequences, data interpretation. Numerical Reasoning is important for succeeding in careers such as mathematics, physics, chemistry, engineering, etc. The ability to reason with numbers is also important in many occupations like bookkeeping, laboratory work, carpentry and tool making.

## Conceptual Reasoning Test (15-16 years age)

Your score is:

HIGH

It is a non-verbal way of testing your reasoning ability. It tests how well an individual can reason with geometrical patterns or design. This type of conceptual reasoning is important in courses and occupations that requires the ability to see relations among objects in terms of their size, position, shape, and quantity. Examples include fields as computer programming, car repair, drafting and mathematics.

## Mechanical Reasoning Test (15-16 years age)

Your score is:

AVERAGE

It measures the ability to interpret the basic mechanical principles of machinery tools and motion. Each item consists of pictorially presented mechanical situation and simply worded question. Items require reasoning rather than special knowledge. Those who do well in this test usually find it easy to learn how to repair and operate complex devices.

## Speed & Accuracy Test (15-16 years age)

Your score is:

AVERAGE

This is a test to see how quickly you can compare number combinations. The test items do not call for reasoning skills, rather the emphasis is on speed. Good score in this test may indicate success in certain careers like technical, scientific data and Routine clerical tasks such as filing or coding.

## Writing Skills Test (15-16 years age)

Your score is: **HIGH**

This test measures the students ability to find errors in grammar, capitalization, punctuation. The ability to spell is the very basic skill required for many academic and vocational careers. High score in this test implies a possible success in careers like teaching and writing.

## Verbal Ability Test (15-16 years Age)

Your score is: **HIGH**

Verbal ability tests tell us how well a student can understand and work with meaning, information and interpret from the given text. This aptitude is useful in areas of work where words are used in analysis and in precision of communication. Literary careers would demand this aptitude, as would education, legal work, business, journalism and some areas of sciences.

## Logical Thinking Test (15-16 years age)

Your score is: **AVERAGE**

Logical reasoning test includes broad categories questions ranging from time distance, seating arrangement, blood relation etc. This aptitude test which measure a person's problem solving ability. Logical ability is useful in many careers but particularly required in careers that need significant problem solving ability or higher use of logic. Careers under this includes Anthropologist, Business Consultant, Career Advisor, Forensic Psychologist, Doctor of Medicine etc.

## Visual Skills Test (15-16 years age)

Your score is: **AVERAGE**

This test requires you to hold an object in your mind, while also turning it upside down, around and pulling it out of shape. The ability to do this is associated with success in the area of design, where a sense of shape and form would obviously be required. Occupations in which an individual is required to imagine how an object would look if made from a given pattern include art, clothing design, dentistry, drafting, carpentry and architecture.

# CAREER INTEREST TEST

## CAREER INTEREST

Career interest test is basically a process of discovering / learning about one's like, dislike, interest, knowledge etc relating to a particular activity / thing or a job title. Which is then is interpreted into his/her career interest .

Example: If a child likes playing outdoor games more than the indoor games, then it can be interpreted that a child may have interest in making a career as a footballer, cricketer etc.

## CAREER INTEREST TEST SCORE

**YOUR CAREER INTEREST RESULT SHOWS AVERAGE INTEREST IN**

- Finance & Management
- Administrative
- Research

## Creative-words

Your score is: **LOW**

A person with a high score in this career interest may have enjoyed english or other 'wordy' subjects, such as history, at school. Their aim is to use words creatively or are drawn towards careers which in some way involve them with information and communication. More structured and predictable careers arise in journalism or public relations. There are other careers which are often suited to this area of preference, such as legal work and librarianship.

## Finance & Management

Your score is: **AVERAGE**

People falling under this category generally like to work with people and ideas more than things. They Likes to lead and persuade people. They like to sell, manage, and influence. They generally avoid activities that require careful observation and scientific, analytical thinking. they are generally described as outgoing, optimistic, energetic, ambitious, and sociable Examples: Salesperson, lawyer, Paralegal/Legal Assistant, politician, accountant, business owner, executive or manager, travel agent, music or sports promoter etc.

## Social

Your score is: **LOW**

A social person generally like to work with people more than things. Likes to do things to help people -- like, teaching, nursing, or giving first aid, providing information; generally avoids using machines, tools, or animals to achieve a goal. They like helping people and solving their problems. Example: Teacher, nurse, coach, counselor, fitness trainer, police officer, social worker, salesperson, customer service officer, waiter, secretary etc.

## Administrative

Your score is: **AVERAGE**

People under this career interest generally like to work with papers, numbers, records, or machines in a set, orderly way; generally avoids ambiguous, unstructured activities. They prefer working indoors and at tasks that involve organizing and being accurate, following procedures, working with data or numbers, planning work and events. They are typically described as practical, careful, orderly and persistent.

## Creative (Arts & Design)

Your score is: **LOW**

High score in this category indicates a person is imaginative and spontaneous. They have talent in one or more art forms. They are usually described as an open, Creative, independent, emotional, impulsive and original. Likes to do creative activities like art, drama, crafts, dance, music, or creative writing; generally avoids highly ordered or repetitive activities. Examples: Actor, illustrator, photographer, songwriter, singer, instrument player, Choreographer, writer, editor, hairdresser, fashion designer, Art Director, Graphic Designer, Animator, etc

## Physical

Your score is:

LOW

A person showing interest in this area, prefers concrete tasks. They generally prefer to work with things than with people. People under this category likes to work mainly with hands, making, fixing, assembling or building things, using and operating equipment, tools or machines. Often likes to work outdoors. They like to make things. They like to work alone. They have wonderful manual and mechanical skills. Examples:- Engineer, Pilot, farmer, horticulturist, Medical Technician, armed services personnel, mechanic, Landscape architect, electrician, computer technologist, sportsperson etc.

## Research

Your score is:

AVERAGE

People falling under this category like to work with abstract ideas and concepts more than with people or things. They like to discover and research ideas, observe, investigate and experiment, ask questions and solve problems. They are good at math & science and they have good observation skills. They really prefer to work independently.

# PERSONALITY TEST

## PERSONALITY

Although you behave in different ways, depending upon the Circumstances you are in or the people you are with, you never - The less have a personality that remains identifiable. If this were not true, people would not be able to anticipate your reactions; the very fact that there are aspects of you which are predictable testifies to your personality. This is not to say that your personality will never change. It may well do so, especially if you make efforts to become aware of your potential and give yourself experiences which are developing. However, it seems practical to take your personality as it is now in order to see how it may relate more successfully to one career than another.

## PERSONALITY TEST SCORE

### YOUR PERSONALITY RESULT SHOWS HIGH INTEREST IN

Introvert/ Extrovert    Imaginative/ Realistic    Calculative/ Enthusiastic    Submissive/ Dominant

## Introvert/ Extrovert

Your score is: **HIGH**

A HIGH SCORE MEANS, YOU ARE EXTROVERT : -People under this personality trait can express their emotions easily and are easy going and adaptive in nature. -They are likely to take a criticism constructively rather than feeling bad about it. -These kinds of people are best suited for professions that require dealing with people and engaging in group activities.

## Imaginative/ Realistic

Your score is: **HIGH**

A HIGH SCORE MEANS, YOU ARE REALISTIC : Realistic people are the kind of people who are quick to respond during the time of emergency as they always attentive to practical things and live in reality in the present moment rather than living in an imaginary world. - They are someone who would do the right thing at the right time. - Professionals like paramedics, army, navy etc needs this personality trait, where a person has to be attentive and quick at making a move.

## Calculative/ Enthusiastic

Your score is: **HIGH**

A HIGH SCORE MEANS, YOU ARE ENTHUSIASTIC : -Lively, open-minded person but impatient and emotionally sensitive people are likely to fall under this category. -Their enthusiasm and sparkling energy inspires others and sweeps them along. - However, their nature of quickly getting bored and moving one to another makes it difficult for them to stick to one thing or to finish what they started. - Careers in advertising, media, films etc where they work on new projects with new enthusiasm after every three- six months would be suitable for them.

## Submissive/ Dominant

Your score is: **HIGH**

A HIGH SCORE MEANS, YOU ARE DOMINANT : -People under this category are believed to be assertive, self-assured and independent- minded. -They get their point across, are determined, takes risk and often get what they strive for. - They are competitive and sometimes may come across as bossy and aggressive. - Senior level job positions like CEO, departmental head etc requires this kind of personality trait where a person need to have the ability to get work done from his subordinates or members of the team
